

Chapter 1 Test: TOMORROW, September 20.

By signing below, you have verified that your student (_____) studied for 30 minutes – 1 hour. Tips on studying for the test:

- Look over notes again. Refer to classroom website for any notes missing.
- Redo problems that were incorrect on HW, without looking at solutions. Then correct it again using solutions on your homework.
- Complete problems that weren't assigned for homework (i.e. if I assigned the evens, practice with the odds)
- I did mention this in class as it is just Chapter 1, but remember you can ask me for additional practice problems! I'd be happy to share them with you, but you need to ask me!
- Make and use flash cards to memorize theorems, definitions, postulates, etc.

Good luck studying!

-Miss Gerling

I verify that my student studied for 30 minutes – 1 hour for the Chapter 1 Test on September 20.
