HW #6-12

Complete the following constructions to prepare you for tomorrow's Performance Task. You can follow the YouTube videos on the classroom website (links on right side of home page), and you can print out this homework assignment as many times as you wish to practice. Turn in your best one! 😊

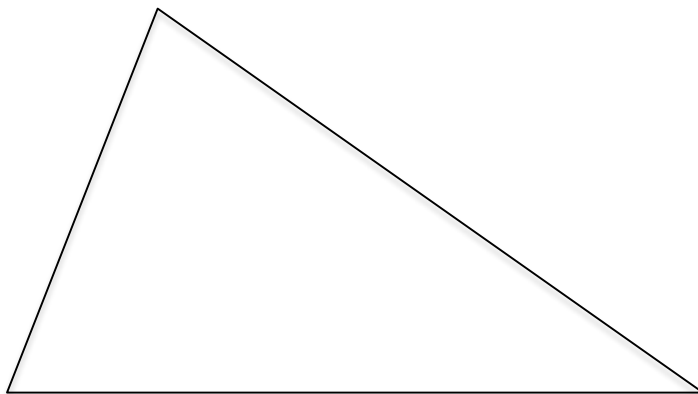

1. Construct the CIRCUMCENTER of the triangle.

To do this, you must construct at least _____ of the _____.

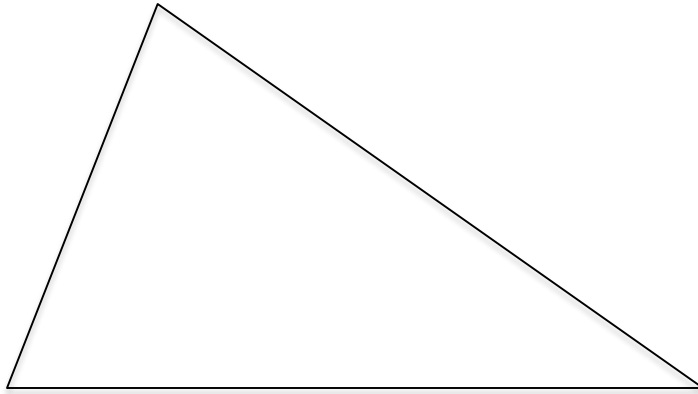

2. Construct the INCENTER of the triangle.

To do this, you must construct at least _____ of the _____.

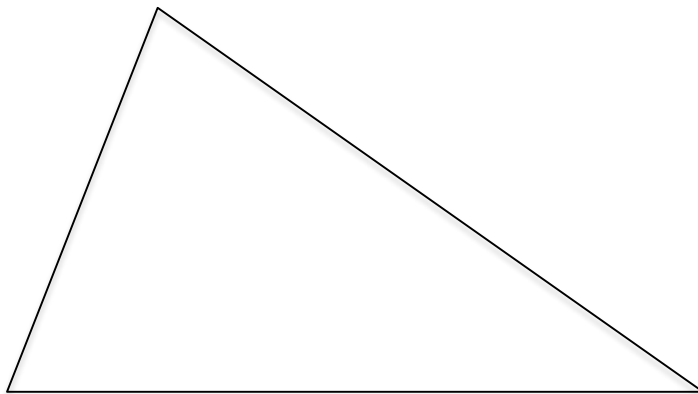

3. Construct the CENTROID of the triangle.

To do this, you must construct at least _____ of the _____.

4. Construct the ORTHOCENTER of the triangle.

To do this, you must construct at least _____ of the _____.

5. Refer to the maps on the classroom website (click HW #6-12 on the calendar for today, and pull up the attachment). Which route would be shortest and *most logical* to get from PVPHS to Disneyland?

- A. Route A
- B. Route B
- C. Route C
- D. Route D
