HW #10-4: Circles Constructions

Complete the following constructions. Refer to YouTube links on classroom website if you want to watch someone doing these constructions for practice. THESE WILL BE ON YOUR CHAPTER 10 TEST! Print out as many times as you like and practice these 😊

1. Construct the line tangent to the point on the circle.

2. Construct the line tangent to the point outside the circle.

3. Construct the circle that passes through all three points given.
